Flush Drywall Receptacle Mount [Lite]

- Designed for light switches, outlets, ethernet and phone receptacles.

  *Instructions below illustrate the install of an outlet, install method is the same for all receptacle types.
- Compatible with any screwless wall plate.

 *Purchase wall plate seperately. Recommended Brands: Leviton, Lutron, Eaton.

- Some preparation to receptacle box is required (see step 1).

- Best done prior to drywall installation.
 *Requires professional drywall taping install.

Install Guide

**1** Ensure the receptacle box is installed flush to the studs.

**2** Cut opening in drywall to fit **Flush Drywall Receptacle Mount**.

3 Ensure flange is flat to the wall. Use spray adhesive to fasten as needed.

4 Fasten the outlet to the receptable box through the "T" shaped holes in the **Flush Drywall Receptacle Mount**.

5 Tape, mud to cover flange. Once dry, sand. Repeat as needed then paint to match wall colour.

6 Fasten the screwless wall plate frame and snap on wall plate.

*Wall plate and wall plate frame not included.
