Features

- Most important special feature is the internally sloped trough. This feature is a key to no stagnant water sitting in the trough any time and eliminates hard water build up

- Length adjustability of drain body with use of trough extensions (4" for each side, 8" total) to accommodate drain sizes from 24" - 72"

- Height adjustability of drain cover with use of spacers for different thicknesses of finish material from 3/8" to 3/4"

- Use with any kind of waterproofing: topical sheet waterproofing (QTS, Kerdi™, Noble TS™), topical liquid waterproofing (AquaDefense™, RedGard™, Hydro Ban™, Ardex 8+9™), hot mop, lead pan, PVC vinyl liner, rubber liner, Chloraloy™, copper pan and fiberglass

- Drain capacity for 2" outlet is 12 GPM in a shower pan with curb and 5 GPM in a shower pan without a curb at the entry. For 1.5" outlet it's 9 GPM and 3.5 GPM. (the actual volume is limited by the plumbing lines and P-trap).

Drain assembly includes

- PVC Parts:
  Drain body (1)
  Leveling Brackets (4)
  Height Adjustable Spacers*

- 304 Stainless Steel Parts:
  Clamping collar (1)
  Cover Channel (2)
 Trough Extension (2)
  Screws*

- Other:
  Cover Removal Key (2)

*See chart for part quantities of different drain lengths.

Installation Notes

- Drain body can not be cut, but can be extended with use of trough extensions.

- Drain cover can be cut on site to fit wall to wall (curb) installation!

- Cutaway illustration (shown) is sheet waterproofing with foam panel installation. **For different types of installations, please see other cutaway illustrations at** *www.quickdrainusa.com*
